**Subject:** Microsoft Settlement

Dear Judge Kollar-Kotally,

I feel the Microsoft settlement before you has serious flaws, and I urge you to reject it. There is no provision to ensure that their anti-competitive activity won't continue. Every court has agreed that Microsoft has used its monopoly powers to reap unjust profits, yet the company is now being allowed to keep those profits.

Please strike down the proposed final judgement as it fails to benefit those Microsoft has wronged--consumers like myself.

Respectfully,

Jennifer L. Smith
